The OCP Global Summit featured some exciting new technologies!

At the **Arm** booth *(photo right)*, they demonstrated **Disaggregated Storage,** which is enabling the next generation of AI infrastructure for the datacenter.

Symbiosys Alliance member Serial Cables is proud to be a part of this fantastic project working in close collaboration with Arm, NVIDIA, Samsung, and AIC.

At the **Samsung** booth *(photo below)*, Symbiosys Alliance member SANBlaze demoed their OCP-ready *Certified by SANBlaze* test suite which now supports Open Compute Project (OCP) 2.0 and Low Power Sub-states validation.
